Weekly Client Meeting Minutes

Time: Asynchronous

Venue: Slack (Client Communication), Discord (Community Discussion)

Meeting Minute Taker: Peter

Attendances: Zachariah, Hugh, Peter, Paras, Saphire, Tasia, Sarah, Rutika

Apologies: N/A

#	Agenda Item	Description/ Comments	Decision/Action	Who?	Items for escalation
1	What has been completed?	Gathered feedback from community members (Buffy) on Discord regarding MetaMask integration issues, including mobile staking claim button visibility, incorrect balance displays after unstaking, duplicate custom token entries, and missing fiat values. Completed exploratory research on wallet options to fork, selecting Rabby as the top contender.	Discussed with Redbelly staff, awaiting response, and have scheduled a time to discuss with the Redbelly team regarding our selection of Rabby.	Everyone	N/A
2	What is in progress?	Compiling and structuring community feedback for Redbelly staff and the engineering team.	Brief memo sent, once progress has been made we can discuss it more	Everyone	N/A

3	What is working well?	Communication with community members on Discord and efficient scoping of specific wallet bugs.	N/A	Everyone	N/A
4	What needs improvement?	None.	N/A	Everyone	N/A
5	Reminders	Ensure all community bug reports are properly documented.	Will work to document and fix the findings after discussion with client.	Everyone	N/A
6	What needs to be completed before the next meeting?	Finalize the evaluation of Rabby as the chosen wallet to fork.	Awaiting client response.	Everyone	N/A
7	What's Next	Plan the development approach for the forked wallet solution.	Awaiting client response.	Everyone	N/A

Main Discussions

- Discussed feedback from Buffy on Discord regarding MetaMask integration faults, specifically noting that the claim tokens button is partially hidden on mobile, unstaked balances show zero until entering the send flow, duplicate custom tokens appear, and fiat values are missing.
- Reviewed wallet options for forking and selected Rabby as the primary candidate.

Key Takeaways

- Community insights successfully clarify staking and token display issues in MetaMask.
- Rabby is the preferred wallet to fork for our next deliverable.

What Happened

- Conducted asynchronous discussions on Slack and Discord, collecting detailed bug reports and screenshots from community members.

What’s Next

- Transition into the forked wallet implementation phase based on our Rabby selection.

Weekly In-Tutorial Group Meeting Minutes

#	Agenda Item	Description/ Comments	Decision/Action	Who?	Items for escalation
1	What has been completed?	Role allocations and group contract	We finalised our roles in the group contract by delegating weekly rotating roles as evenly as possible	All members	N/A
2	What is in progress?	Project progress report	We have allocated sections of the report to all members with the exception of Hugh, who will be completing the demonstration video	All members	N/A
3		Presentation slides	Everyone will be working on the presentation slides for the sections they were allocated in the report	All members	N/A
4	What is working well?	Collaboration and communication	The team is extremely self-organised, having little to no trouble	All members	N/A

			progressing with the work, and making sure work is fairly distributed. Clear and effortless communication is a big cause for this effect.		
5	What needs improvement?	N/A	N/A	N/A	N/A
6	Reminders	Complete project progress report & presentation slides by Sunday, 13th of September.	Everyone is actively working on completing their allocated sections and tasks in a timely manner.	All members	N/A
7	What needs to be completed before the next meeting?	The project progress report & presentation slides	This must be completed before our next meeting as we will not be meeting before the due date.	All members	N/A
		All members should familiarize themselves with the Rabby wallet fork	Zachariah has completed research on which options would be a good fit and Rabby is the wallet the team has decided on.. All members should research and understand Rabby better so we can begin	All members	N/A

			working on the fork ASAP.		
8	What's next?	Begin working on the forked Rabby wallet deliverable for the client that solves the issues the client has provided us	Our main goal after our presentation is to begin completing our new deliverable, a forked Rabby wallet that works on the Redbelly network and solves the problems the client wants solved.	All members	N/A

Main Discussions

- Discussed and finalised roles for the report and presentation slides, and group contract. Finalised decision on Rabby wallet as the chosen wallet to fork.

Key Takeaways

- Rabby is going to be the wallet that is forked for our additional deliverable requested by our client.
- Everyone understands their role in completing the report and presentation slides.

What Happened

- Finalised weekly rotating roles in the new group contract and confirmed report section allocations, with Hugh producing the demonstration video in place of a written section.
- Agreed on Rabby as the wallet to fork for the additional client deliverable.
- Worked on the report and presentation slides as a group.

What's Next

- Complete the progress report and presentation slides by Sunday 13 September; no further meeting before the deadline.

- All members to familiarise themselves with the Rabby codebase so fork development can begin promptly after the presentation.
